

Pangea Shawl KAL, Step 3

In step 3, you'll continue to work in the pattern stitch established at the end of Step 2. Just follow Chart D, repeating the eight-stitch pattern as needed on each side of the shawl. Like the other charts, Chart D presents only the right half of the shawl. Because the shawl is symmetrical, the left half is worked identically to the right.

Remember that the chart shows only odd-numbered rows. Work the even numbered rows as K2, P across until two stitches remain, then K2. Don't forget to work a row 24 after you finish charted row 23.
